SIBU WATER BOARD

Jo Our Vision

Towards
World Class In
Providing Potable Water
For Central Region of Sarawak.

To Our Mission

The
provision of safe,
reliable and competitively priced
water supply at the highest
attainable standards in
Quality & Service.

CHAIRMAN'S STATEMENT

INTRODUCTION

On behalf of the Board, I am very pleased to present the Annual Report and Audited Accounts of the Board for the financial year ended 31 December 2007.

FINANCIAL REVIEW

For the year under review, the Board's total revenue rose by RM1.11 million or 4.5% to RM26.07 million from RM24.95 million in 2006.

The increase in total revenue is attributed to the increase of water sales by 4.7% to RM20.58 million from the previous year of RM19.65 million and the increase of other operating revenue by 3.5% to RM 5.48 million from the pervious year of RM5.30 million. On the other hand, the total operating expenditure, increased by RM1.37 million or 6.6% to RM26.42 against the previous year of RM25.05 million. This is mainly attributed to the revision of salary and electricity tariff. As a result, the Board recorded a net operating loss of RM0.35 million against the previous loss of RM0.01 million.

DEVELOPMENT PROGRAMME

The year under review marks the 2nd year of 9th Malaysian Plan. The Board continued to implement the two (2) major development programmes as planned, namely the expansion of Salim Treatment Plant Phase II and Renewal of Pipelines in various parts of Sibu, besides the normal extension of pipelines to housing development areas. The amount of development expenditure incurred during the year totaled RM17.2 million against RM12.3 million in 2006. RM14.0 million or 82% of the expenditure was spent on the expansion of Salim Treatment Plant Phase II to ensure sufficient capacity to support the growing demand up to 2020, while RM2.6 million or 15% was spent on Renewal of Pipelines in fighting against non revenue water. The expenditure on normal extension of pipelines to housing development areas accounted for RM0.4 million only or 3% of the total development expenditure of the year. Upgrading of Stabau Booster Station, with a scheme value of RM1.5 million, was kicked off during the year to boost better water pressure and to ensure more reliable supply to Durin area. The Board received RM19.4 million from Federal Governments in terms of soft loans to finance its development projects compared to RM16.3 million the previous year. As at 31 December 2007, the balance of loan outstanding was RM80.63 million compared to RM67.65 million in 2006.

PRODUCTION AND CONSUMPTION

The Board produced a total of 35,191 megalitres of fully treated water in the year compared to 34,760 megalitres the previous year, an increase of 1.2%. During the year, the maximum daily production recorded by the Board was 121.64 megalitres as against the minimum of 77.36 megalitres.

There was an increase of 3.6% of total consumption in the year, from 24,356 megalitres the previous year to 25,241 megalitres in 2007. The total number of active services had increased from 48,399 in 2006 to 50,338 in 2007.

OTHERS

In 2007, the Board emerged as the first water supply organisation in the state to receive accreditation for IMS, which incorporates MS ISO: 9001:2000, OHSAS 18001:1999 and EMS 14001:2004. The milestones made will go a long way in support of the Board's vision of becoming a world class organization in providing potable water for the central region of Sarawak.

There had been some changes to the Board during the year. We welcomed newly appointed Board members, Encik Wong Nang Yong, Encik Awang Julaihi Bin Awang Ali Bohan, Encik Sayun Ambing and Puan Ngui Ing Ing in succession to the outgoing Board members, Encik Patrick Tong Hing Lee, Encik Dorson Hassan, Encik Julius Mason Sampang and Encik Yong Ung Tung, who served the Board up to 31.03.2007. To the out-going members, I would like to acknowledge their wise counsel and contributions during their term as Board members.

APPRECIATION

I would like to express my sincere appreciation to my fellow members for their cooperation, vision, and support extended to the Board. My heartfelt thanks and congratulations to the Management and staff for their good work and dedication which had led to the outstanding achievements and successes in 2007. I would like to place on record my sincere thanks and gratitude to the State and Federal governments and all other relevant government agencies and our valued customers for their cooperation, continued support and trust placed in us

HJ. UBAIDILLAH BIN HJ. ABDUL LATIP

Chairman

ESTABLISHMENT

Incorporation |

Incorporated under the Sibu Water Board Order, 1959 made under Section 19 of the Water Supply Ordinance 1959 (Cap. 141) and re-incorporated under the Sibu Water Board Order, 1995 made under Section 19 of the Water Ordinance 1994 when the Water Supply Ordinance 1959 was repealed.

Objectives of the Board

A body corporate established by the Yang di-Pertua Negeri as the water authority to administer, manage and supervise all water works situated within the area specified below:

Commencing from a Trig point numbered TT352 at the Sibu/Kanowit District Boundary on the true left bank of Batang Rajang about 1300 metres from East of Sungai Pak; thence on a South/Westerly direction following the Sibu/Kanowit District Boundary until it reaches Trig marked N134 on the common Divisional Boundary of Sibu/Sarikei; thence following the Sibu/Sarikei Divisional Boundary on a West/Northerly direction until it reaches the confluence of Loba Singat at Batang Lassa; thence on hearing 90 degree for a distance of 46 Km to reach a point at 'A' on the common District Boundary of Sibu/Dalat; thence following the existing Sibu/Dalat District Boundary on a Southerly direction for a distance of approximately 45 Km; thence following the existing Sibu/Kanowit District Boundary on a Southerly direction for a distance of approximately 10 Km to reach the Trig marked TT352, being the point of commencement

Statutory Functions of the Board

Pursuant to Section 18 (3) - (4) of the Water Ordinance 1994, the general functions of the Board as a water authority are:

- · to have the custody, management and administration of water works and the water therein and the management of the supply and distribution of such water within its area of supply subject to the general control and supervision of the State Water Authority.
- to supply water to the consumers within the limits of its area of supply subject to the provision of the Water Ordinance 1994 and any regulations made thereunder.

DEVELOPMENT

PLANS

The major development of the Board under the 9th Malaysia Plan included implementation of the following projects:

- Expansion of Salim Treatment Plant
 - A new raw water intake
 - A 75 MLD treatment plant
- Renewal of Pipelines in Various Parts of Sibu Town (on-going)

DEVELOPMENT PROGRESS

2007 marks the second year of 9th Malaysia Plan. The Board spent RM17.2 million on development during the year. Out of this amount, RM14.0 million (84%) and RM2.6 million (15%) were spent on Salim Treatment Plant Phase II and the Renewal of existing mains. The Board saw the completion of two (2) projects which commenced in the previous years. Another three (3) contracts awarded during the previous years were expected to be completed by year 2008. There were three (3) new projects awarded during the year, all of which were still in progress at the end of the year. A summary of the development projects for the year is shown below:

(i) Contract No. SWB/CT/07/2006

The Delivery and Laying of D.I./HDPE Mains, Valves & Fittings Cum Ancillary Works Along Jalan Tun Abang Haji Openg, Sibu (Main Renewal).

Contract Sum:

Revised Contract Sum:

Contract Period:

Contractor:

Physical Work Done up to 31.12.2007:

Scheduled Progress up to 31.12.2007:

Remarks:

RM2,180,804.00

RM885,387.00

18.09.2006 - 17.09.2008

Mainline Enterprise

Sdn. Bhd.

7.02%

27%

The program has to suit the construction of RC drain by JKR. The project was mutually terminated at the beginning of 2008 when JKR was unable to complete the scope as originally planned. It was subsequently revived when JKR resumed the work in the middle of 2008.

(ii) Contract No. SWB/CT/09/2006

The Delivery and Laying of D.I. Pipes, Valves & Fittings Cum Ancillary Works at Kampung Bahagia/Teku Junction.

Contract Sum: RM82,104.00
Revised Contract Sum: RM59,205.00

Contract Period: 16.10.2006 - 15.04.2007

Revised Contract Period: 16.10.2006 - 15.05.2007

Contractor: Sabacon Construction

Practical Completion Date: 14.05,2007 Expiry Date of Defects Liability Period: 13.05,2008

(iii) Contract No. SWB/CT/11/2006

The Delivery & Laying of D.I./HDPE Mains, Valves and Fittings Cum Ancillary Works Along Jalan Upper Lanang, Jalan Then Kung Suk, Lorong 1, 4 & 5, Jalan Saga, Jalan Alan & Jalan Umpi Rantai, Sibu (Mains Renewal Year 2006).

Contract Sum: RM3,338,666.40
Revised Contract Sum: RM609,329.00

Contract Period: 09.11.2006 - 08.11.2007 Revised Contract Period: 09.11.2006 - 01.04.2008

Contractor: Zakaria Yew
Construction

Physical Work Done up to 31.12.2007: 79.41%

(iv) Contract No. SWB/CT/12/2006

The Delivery & Laying of D.I./HDPE Mains, Valves and Fittings Cum Ancillary Works Along Jalan Langsat, Lorong 2, Jalan Belian, Jalan Merlin, Lorong 3, Jalan Punai, Jalan Manggis, Jalan Lun, Jalan Geronggang, Jalan Lajong & Jalan Nanyang Garden, Lorong 3 & 6, Sibu (Mains Renewal Year 2006).

Contract Sum: RM1,734,390.00
Revised Contract Sum: RM538,512.50

Contract Period: 09.11.2006 - 08.11.2007
Contractor: Mainline Enterprise Sdn.

Bhd.

Practical Completion Date: 18.09.2007 Expiry Date of Defects Liability Period: 17.09.2008

(v) Contract No. SWB/CT/13/2006

The Delivery & Laying of D.I./IIDPE Mains, Valves and Fittings Cum Ancillary Works Along Jalan Tong Sang, Lorong 2, 3 & 5, Jalan Engkala & Jalan Bertuah, Jalan Kapor, Lorong 1, 2 & 9, Wong King Huo, Lorong 5, Jalan Mui Hong, Jalan Ria, Lorong 4, Jalan Bukit Assek, Lorong 2 & Jalan Uk Daik, Sibu (Mains Renewal Year 2006).

Contract Sum: RM3,347,709.90 Revised Contract Sum: RM835,673.50

Contract Period: 04.12.2006 - 03.12.2007

Revised Contract Sum: 04.12.2006 - 18.03.2008

Contractor: Zakaria Yew Construction

Physical Work Done up to 31.12.2007: 74.35%

(vi) Contract No. SWB/CT/15/2006

The Supply of Labour for The Laying of 355mm OD HDPE Mains on the Upper Lanang Bridge from Jalan Lanang Barat to Sungai Assan, Sibu

Contract Sum:

RM100,000.00

Contract Period:

12.12.2006 - 26.12.2006

Contractor:

Pekerjaan Piasau

Konkerit Sdn. Bhd.

Practical Completion Date:

26.12.2006

Expiry Date of Defect Liability Period: 25.12.2007

(vii) Contract No. SWB/CT/01/2007

The Construction, Completion and Commissioning of the Proposed for Salim Treatment Plant Phase II, Stage 2, Sibu Division

Contract Sum:

RM37,499,000.00

Contract Period:

01.02.2007 - 31.01.2009

Contractor:

Laras Jaya Construction Sdn. Bhd./Mahkota

Technologies Sdn. Bhd.

Joint Venture

Consultant:

Jurutera Jasa (Sarawak)

Sdn. Bhd.

Physical Work Done up to 31.12.2007: 9.46%

Remarks:

Delay due to bore pile installation and flooding.

The Construction, Completion and Commissioning of the Proposed Second Raw Water Intake for Salim Water Treatment Plant, Sibu.

Contract Sum:

RM19,441,548,30

Contract Period:

28.03.2007 - 27.11.2008

25.42%

Remarks:

Delay due to problems in

construction of jetty and

flooding.

(ix) Contract No. SWB/CT/15/2007

The Delivery & Laying of D.I., Mains, Valves & Fittings Cum Ancillary Work along Ulu Sungai Merah, Sibu (Mains Renewal).

Contract Sum:

RM79,990.00

Contract Period:

05.11.2007 - 04.03,2008

Contractor:

Syarikat Erajaya

0%

Physical Work Done up to 31.12.2007: Remarks:

Pipes and fittings were delivered

on 8 January 2008.

DEVELOPMENT WORK

MAINS EXTENSION

For the year 2007, 20.52 km of water mains were laid and the total length of water mains in the distribution system stands at 964 km. The size of pipes in the distribution system ranges from 50 mm to 750 mm diameter. In addition, 6.20 km length of pipes were renewed in various locations within the Board's water supply area to enhance the distribution system. The details of the mains laid and renewed are as per tables listed below:

Length Of Pipes Laid During The Years 2003 To 2007

Pipe Sizes In		Yearly New Ex	ctension (Len	gth In Meters)	
Millimeters	2003	2004	2005	2006	2007

300	1,901	-		-	120
TOTAL	9,623	352	11,945	12,199	6,205

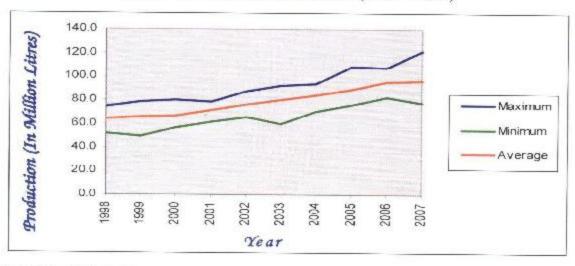

PRODUCTION

The Board is running two (2) main treatment plants, namely Bukit Lima and Salim Water Treatment Plants with a design capacity of 45 MLD and 75 MLD, respectively. Durin Treatment Plant with a capacity of 0.65 MLD, which was decommissioned in 2005, was put into operation again on 2nd March 2007 till the middle of 2008 due to the failure of submarine pipeline from Stabau Booster Station to Durin High Level Tank.

The Board produced a total of 35,191 ML fully treated water in the year 2007 or an average of 96.41 ML per day, an increase of 1.24% over that of 2006. During the year, the Board recorded a maximum daily production of 121.64 ML on 17.02.2007 and a minimum daily production of 77.36 ML on 03.11.2007.

DAILY WATER INTO SUPPLY (1998 - 2007)

QUALITY CONTROL

The execution of the Board's stringent water surveillance program augmented by the National Drinking Water Quality Surveillance Program (NDWQSP) ensured that safe and wholesome drinking water supply was maintained throughout the year of 2007.

During the year, 84,756 samples from Raw Water Intakes, Treatment Plants, High Level Tanks & Reservoirs and Distribution System were taken for Physico-chemical and Bacteriological examination. Out of the total number, 80,648 samples were analyzed physico-chemically while the remaining 4,108 samples were examined bacteriologically.

A total of 83,220 samples or 98.18% of the total were analyzed at the Board's Water Quality Control Laboratory while the rest of 1,536 samples or 1.82% were sent to the Department of Chemistry for analysis. The breakdown of the samples analyzed is shown below:

	Physico-chemic	cal examination	Bacteriological examination		
Location	Board's Laboratory	Chemistry Department	Board's Laboratory	Chemistry Department	
Raw Water Intakes	26,160	24	0	104	
Water Treatment Process	39,240	0	520	0	
Treatment Plant Outlets	13.140	24	520	104	
High Level Tanks & Reservoirs	1,092	84	1,092	364	
Distribution System	728	156	728	676	
	80,360	288	2,860	1,248	

Less than 1% of samples for raw water sent to Chemistry Department were analyzed to contain Total Coliform exceeding 5000 MPN/100 ml, the maximum acceptable level for conventional water treatment. As for treated water samples, 0.99% were to contained Total Coliform exceeding 1 cfu/ml and 0% violation for E Coli. There was no violation on residual Chlorine.

As for residual Fluoride, the requirement of 0.40-0.60 PPM was quite difficult to achieve because the fluoride dosages were not controlled by automation system. However, the percentage of non-conformance of fluoride level <0.40 PPM was 3.85%, and for level >0.60 PPM was 0% in year 2007. (According to the modified NIA Indicators of Bahagian Perkhidmatan Pergigian, Kementerian Kesihatan Malaysia, the maximum allowable percentage of non-conformance of fluoride level <0.40 PPM should not be more than 25%, and for level >0.60 PPM should not be more than 7%).

SIBU WATER BOARD'S SUPPLY AREA

CORPORATE PROGRESS CUSTOMER SERVICE & DISTRIBUTION

DISTRIBUTION SYSTEM

The Distribution Unit is responsible for the maintenance of the watermains, communication pipes, pipe appurtenances and the operation of Booster Stations at Deshon, Teku, Stabau, Mile 19 and Sibu West. The number of watermains, communication pipes and pipe appurtenances repaired/renewed during the year are as follows:-

Water Mains, Communication Pipes and Pipe Appurtenances And Meters Repaired/Renewed/Replaced In 2007

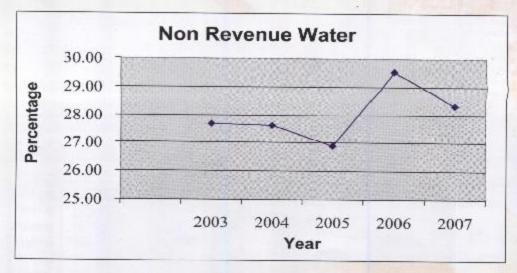

Particulars	Repaired	Renewed/Replaced
Watermains	349 nos.	21,051 metres
Communication Pipes	1446 nos.	766 nos.
Pipe Appurtenances	129 nos.	84 nost
Meters	112 nos.	1712 nos.

The Flushing Unit had carried out 2,997 number of flushing during the year throughout the distribution system to ensure clean water was supplied to the customers.

NON-REVENUE WATER

In 2007, 511 numbers of leaks from pipes and services, 64 numbers of water theft had been detected and addressed.

The Board's Non-Revenue Water (NRW) level for the year was 28.3% (which accounts for 9.913 megalitres), as compared to 29.7% (which accounts for 10.308 megalitres) the previous year. The graph below shows the NRW levels for year 2003-2007.

A holistic approach had been engaged by the Board to address the issue of NRW since the setting up of a NRW Unit in April 2007. The measures taken include the District Metering Zones, off-site telemetry system and replacement of aged water meters and renewal of pipelines in various parts of Sibu Town.

CUSTOMER SERVICE

The Customer Service Unit provides services pertaining to the application for water supply and the transfer or closing of accounts and handling of complaints. The statistics pertaining to the number of connections, new meters installed, number of meters disconnected and reconnected in 2006 and 2007 are as follows:-

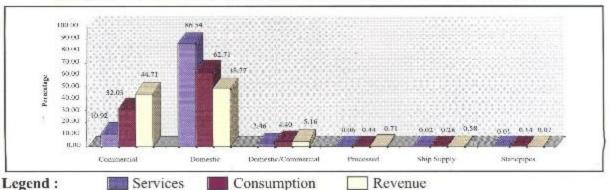

Number Of Meters Installed, Disconnected And Reconnected In 2006 And 2007

Particulars	2007	2006
Total no. of connections at the end of the year	51,545	49,125
New meters installed	2,420	1,920
No. of meters disconnected	4,981	3,740
No. of meters reconnected	5,166	3,293

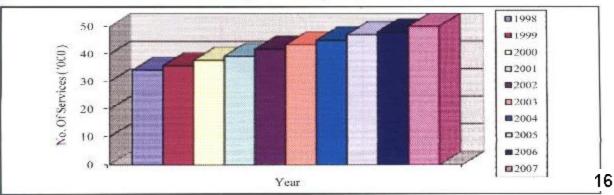

At the end of the year, the number of connections totalled 51,545; out of which 50,338 are active customer accounts. There was a net increase of 4% of active customer accounts over the previous year. The consumers' breakdown are:-

Sector	Number	Percentage
Domestic	43,561	86.54
Domestic/Commercial	1,239	2.46
Commercial	5,495	10.92
Others	43	0.08

Relationship (Percentage) Of Classification By Category Of Consumers In Respect Of Services, Consumption and Revenue For The Year 2007

Number Of Services (1998 - 2007)

HUMAN RESOURCE

STAFF STRENGTH

The total staff strength at the end of the year 2007 was 187 persons against 190 persons in year 2006. The movement of the staff is exhibited in the table below:

Particular	Professional & Management Group	Support Group	Total
No. of staff as at 1.1.2007	*8	182	190
Retired	(1)	(6)	(7)
Resigned	(1)	(1)	(2)
Passed away		(1)	(1)
Newly recruited	SHITTER AND	7	7
No. of staff as at 31,12,2007	*6	181	187

^{*} include 1 staff seconded to SFS.

HUMAN RESOURCE DEVELOPMENT

To enhance quality of services delivered, the Board spent RM166,000.00 or 3% of Administration cost in training staff on various aspects in 2007.

The generous allocation on training had allowed the staff in the organisation to attend 54 selected courses, seminars or conference held either in-house or at other training centres across the country. The major training programmes during the year are summarized as below:-

No.	Course	Training Venue	No. of staff attended
1	IMS Training	In-house	36
2	Forklift Operator & Safety Training	In-house	21
3	Kecemerlangan Perkhidmatan		
	Pelanggan & Pengendalian Aduan	In-house	34
4	Sarawak 4th International Quality		
	Congress	Kuching	4
5	Sarawak Regional 5S Convention	Kuching	6
6	Technical Visit on NRW Program	Pulau Pinang	4

The Board had been successfully certified to 5S Practices on 04 July 2007 and Integrated Management System (IMS), which comprises ISO 9001:2000, EMS 14001:2004 and OHSAS 18001:1999, on 8 August 2007.

The Board also provided industrial training for 24 students pursuing degree, diploma and certificate courses in various fields especially engineering, chemical and ICT. The students gained valuable exposure and hand-on experience during their industrial training periods.

QUALITY MANAGEMENT SYSTEM

The Board's Journey to Excellence continued with the certification towards Integrated Management System (IMS) comprising ISO 9001:2000, EMS 14001:2004, and OHSAS 18001:1999 in January 2007.

The ISO structure was extended with the appointment of an Integrated Management Representative/Officer to manage the system assisted by Quality, Environment, and Occupational Health & Safety Management Representatives and Officers.

Various internal trainings were conducted including documentation, process actions, and internal audits during the period from February to May 2007.

In the certification process, the Board had to undergo two (2) audit stages conducted by the registrar AOQC Moody International, a registrar registered with the Department of Standards, Malaysia. The 1st stage audit was conducted from 11 to 12 June 2007, and the 2nd audit was conducted on 9 to 11 July 2007.

The Board received our certificates for the three (3) systems, namely, ISO9001:2000, EMS14001:2004, and OHSAS18001:1999 on 8 August 2007.

The Quality Management System Unit was renamed to the Integrated Management System Unit, which is in line with the development of the system in the Board.

1st Stage Audit June 11-12, 2007

2nd Stage Audit July 9-11, 2007

Documentation & Process Training February 2007

Internal Audit Training May 2007

SIJIL KETUA AUDIT NEGARA MENGENAI PENYATA KEWANGAN LEMBAGA AIR SIBU BAGI TAHUN BERAKHIR 31 DISEMBER 2007

Penyata kewangan Lembaga Air Sibu bagi tahun berakhir 31 Disember 2007 telah diaudit oleh wakil saya. Pihak pengurusan bertanggungjawab terhadap penyata kewangan ini. Tanggungjawab saya adalah mengaudit dan memberi pendapat terhadap penyata kewangan tersebut.

- 2. Pengauditan telah dilaksanakan mengikut Akta Audit 1957 dan berpandukan piawaian pengauditan yang diluluskan. Piawaian tersebut menghendaki pengauditan dirancang dan dilaksanakan untuk mendapat kepastian yang munasabah sama ada penyata kewangan adalah bebas daripada kesilapan atau ketinggalan yang ketara. Pengauditan itu termasuk memeriksa rekod secara semak uji, menyemak bukti yang menyokong angka dan memastikan pendedahan yang mencukupi dalam penyata kewangan. Penilaian juga dibuat terhadap prinsip perakaunan yang digunakan dan persembahan penyata kewangan secara keseluruhan.
- 3. Pada pendapat saya, penyata kewangan ini memberi gambaran yang benar dan saksama terhadap kedudukan kewangan Lembaga Air Sibu pada 31 Disember 2007, hasil operasi serta aliran tunainya untuk tahun tersebut berdasarkan piawaian perakaunan yang diluluskan.

(KHALID KHAN BIN ABDULLAH KHAN)

SIBU WATER BOARD NOTES TO THE FINANCIAL STATEMENTS

I. PRINCIPAL ACTIVITIES

The principal activities of the Board are the production, distribution and supply of potable water within the limit of the approved areas of supply.

2. BASIS OF PREPARATION OF THE FINANCIAL STATEMENTS

The financial statements of the Board have been prepared in accordance with applicable approved accounting standards in Malaysia.

3. DATE OF AUTHORISATION FOR ISSUE

The financial statements were authorised for issue by the Board on 25 March 2008.

4. FINANCIAL RISK MANAGEMENT POLICIES

The Board is exposed to credit risk, interest rate risk and liquidity risk in the normal course of the Board's business. The Management's agreed policies for managing each of these risks are summarised below:-

(i) Interest rate risk

Surplus funds are placed with government approved financial institutions with competitive and favourable interest rates.

(ii) Liquidity risk

The Board monitors and maintains a level of cash and cash equivalents deemed adequate by Management to finance the Board's operations and to mitigate the effects of fluctuations in cash flows.

(iii) Credit risk

Management has a credit policy in place and the exposure to credit risk is monitored on an ongoing basis. Customers are requested to place an initial deposit at the time of signing of the agreement for water supply. Their water supplies are disconnected if the customers default in payment within a stipulated time frame.

5. SIGNIFICANT ACCOUNTING POLICIES

5.1 Basis of accounting

The financial statements of the Board have been prepared on the basis of the historical cost convention, unless otherwise stated.

5.2 Revenue recognition

Revenue from sales of water is recognised based on metered usage upon delivery of the water.

Interest income from placement of fixed deposits with approved financial institutions is accrued on a time-apportioned basis.

Dividend income is recognised in the income statement when the shareholder's right to receive payment is established.

5.3 Thresholds for capitalization of capital expenditure

The threshold for capitalization of capital expenditure is RM500.00. Capital expenditure below the threshold is expensed off in the income statement.

5.4 Property, plant and equipment and depreciation

Freehold land is not depreciated. Leasehold land is amortised over the term of their respective lease periods. Depreciation on other property, plant and equipment is calculated to write off the cost of the assets to their respective residual values on a straight line basis over their expected useful lives. All other property, plant and equipment are stated at historical cost less accumulated depreciation and impairment losses. The principal annual depreciation rates for the other assets are as follows:-

Buildings	4%
Furniture and fittings	10%
Headworks, booster stations and mains	4%
Meters	10%
Communication pipes	5%
Plant and machineries	20%
Workshop and field equipment	10%
Office and store equipment	20%

Fully depreciated assets are retained in the accounts at a nominal value of RM1.00 until they are no longer in use and no further charge of depreciation is made in respect of these assets.

5.5 Deferred income

Consumers are required to contribute towards the cost of revenue earning capital projects. These contributions together with government grants in respect of capital expenditure are credited to the deferred income account and released to the income statement on a straight line basis over the expected useful lives of the assets except for those relating to projects not yet completed.

5.6 Inventories

Inventories comprising pipes, spare parts and chemicals are stated at lower of cost and net realisable value. Cost is determined using first-in, first-out.

5.7 Work-in-progress

Work-in-progress is valued at cost and where appropriate includes supervisory and other overhead expenses. Work-in-progress shall be capitalised when the asset is substantially functionable and the date of capitalisation shall be the date of handing over to the Sibu Water Board.

5.8 Cash and cash equivalents

Cash and cash equivalents represent cash balances and deposits with financial institutions.

5.9 Financial instruments

Financial instruments carried on the balance sheet include cash and bank balances, investment, receivables, payables and borrowings. The particular recognition methods adopted are disclosed in the individual accounting policy statements associated with each item.

5.10 Impairment of assets

The carrying values of assets are reviewed for impairment when there is an indication that the assets might be impaired. Whenever the carrying amount of an asset exceeds its recoverable amount, an impairment loss is recognised as income for assets carried at cost. The recoverable amount is the higher of an asset's net selling price and value in use. The net selling price is the amount obtainable from the sale as an asset at arm's length transaction. Value in use is the present value of estimated future cash flows expected to arise from the continuing use of an asset and from its disposal at the end of its useful life. Recoverable amounts are estimated for individual assets or, if it is not possible, for the cash generating unit.

Reversal of an impairment loss recognised in prior years is recorded when there is an indication that the impairment loss recognised for an asset no longer exists or has decreased. The reversal is recorded as income or as a revaluation increase.

5.11 Income taxes

Income tax on the profit or loss for the year comprises current and deferred tax. Current tax is the expected amount of income taxes payable in respect of the taxable profit for the year and is measured using the tax rates that have been enacted at the balance sheet date.

Deferred tax is provided for, using the liability method, on temporary differences at the balance sheet date between the tax bases of assets and liabilities and their carrying amounts in the financial statements. In principle, deferred tax liabilities are recognized for all taxable differences and deferred tax assets are recognized for all deductible temporary differences, unused tax losses to the extent that it is probable that taxable profit will be available against which the deductible temporary differences and unused tax losses can be utilized. Temporary differences are not recognized for initial recognition of assets and liabilities that at the time of transaction, affects neither accounting nor taxable profit.

5.12 Employee benefits

Short-term benefits

Wages, salaries, bonuses and social security contributions are recognized as an expense in the year in which the associated services are rendered by employees of the Board. Short-term accumulating compensated absences, such as paid annual leave are recognized when services rendered by employees that increases their entitlement to future compensated absences; and short-term non-accumulating compensated absences, such as sick leave are recognized when the absences occur.

(ii) Defined contribution plan

As required by law, the Board makes contributions to the 'Skim Pencen Perkhidmatan Awam' and the Employee Provident Fund respectively. Such contributions are recognized as an expense in the income statement as incurred.

11. VESTED ASSETS RESERVE

The reserve represents the depreciated value of assets taken over from JKR by the Board when it was incorporated on Ist January, 1959.

12. DEFERRED INCOME

Deferred income represents capital contributions received and receivable from customers towards the cost of capital projects and government grants received; and is analysed as follows:

	2007	2000
	RM	RM
Balance as at 1st January	43,063,758	43,449,439
Additions during the year	3,050,746	3,229,883
Amortisation	(3,679,384)	(3,615,564)
Balance as at 31st December	42,435,120	43,063,758

Capital contributions received from customers in 2007 amounted to RM3,050,746 (2006: RM3,229,883). No grant was received from Federal Government towards the cost of rural water supply projects (2006: Nil). The capital contributions and grants amounted to RM2,571,918 (2006: RM2,508,098) and RM1,107,466 (2006: RM1,107,466) respectively.

13. REVENUE 2007 2006

RM RM
20,581,182 19,650,943

14. LOSS BEFORE TAXATION

The following items have been charged/(credited) in arriving at the loss before taxation:

		2007	2006
144 P. S.		RM	RM
Depreciation on property, plant and equipment		9,179,106	8,878,171
Staff cost		6,298,455	5,753,190
Amortisation of deferred income	74	(3,679,384)	(3,615,564)
Gains on disposal of property, plant and equipment		(545,099)	(479,335)
Interest income		(405,690)	(314,242)
Dividend Income		(105,204)	(159,326)
Board members' remuneration		46,220	46.841
Auditors' remuneration		19,173	17,430

15. TAXATION

	2007	2006
m	RM	RM
Tax expense for the year	the state of the s	

A reconciliation of income tax expense applicable to loss before tax at the statutory tax rate to income tax expense at the effective income tax rate of the Board is as follows:-

Loss before taxation	2007 RM (350,696)	2006 RM (95,601)
Taxation at Malaysian statutory tax rate of 27% (2006: 28%)	(94,688)	(26,768)
Depreciation on non-qualifying property, plant and equipment	115,446	113,028
Capital gain not subject to tax Income not subject to tax	(147,177) (6,778,707)	
Deferred tax assets not recognised during the year	6,905,126	6,797,366

With effect from year of assessment 2006 onwards, following the Income Tax (Exemption) (No. 22) Order 2006, the YB Minister of Finance exempted the Board from income tax in respect of the followings:

- (a) income relating to the allocations given by the Federal and the State Government in the form of grants or subsidies, and
- (b) the income received in respect of an amount chargeable and collectible from any person in accordance with the provisions of the Act regulating the Board; or
- (c) any donations or contributions received

16. DEFERRED TAXATION

No deferred tax liabilities and assets have been recognised in respect of the following temporary differences:

	2007 RM	2006 RM
Temporary differences that may give rise to deferred tax liabilities:	RIVI	KM
Accelerated capital allowances	72,123,495	70,271,838
Dividend receivable	-	17,388
	72,123,495	70,289,226
Temporary differences that may give rise to deferred tax assets:		
Unutilised capital allowance	85,756,654	75,153,466
Unutilised tax losses	32,629,112	15,855,079
Deferred income	÷	2
Provisions	121,765	90,178
	118,507,531	91,098,723

Deferred tax assets have not been recognised in respect of these items as the Board may not have taxable profits for which these tax assets can be utilised in the foresceable future, since the Board is exempted from payment of income tax for most of her income as stated in Note 15 above.

17. FINANCIAL INSTRUMENTS

(a) Interest rate risk

The interest rate risk that financial instruments value will fluctuate as a result of changes in the market interest rates and the effective weighted interest rates on classes of financial assets and financial liabilities are as follows:-

	Less than 1 year RM	1 to 5 years RM	More than 5 years RM	Total RM	Effective interest rate during the year
Financial Assets Fixed deposits	13,308,573	200,000	. water per	13,508,573	3.10% - 8.00%
Financial Liabilities Loans	3,836,949	27,888,935	48,902,131	80,628,015	

(b) Credit risk

The carrying amounts of cash and cash equivalents, trade receivables and other receivables represent the Board's maximum exposure to credit risk. At the balance sheet date, there were no significant concentration of credit risk, except for trade receivables of financial instruments relating to two (2) customers which accounts for 23,74% of the total receivables.

(c) Fair value

The fair value of the financial assets and liabilities approximates their carrying values except:-

	Carrying amount RM	Fair value RM
Assets Other investment	4,970,269	5,152,669

The following methods and assumptions are used to estimate the fair value of each class of financial instruments:

(i) Deposits, cash and bank balances

The carrying amount of cash and bank balances approximates fair value due to the relatively short term maturity of these instruments.

(ii) Trade and other receivables; Trade and other payables

The historical cost carrying amount of receivables and payables subject to normal trade credit terms approximates fair value. The carrying amounts of other receivables and payables are reasonable estimates of fair value because of their short term maturity.

(iii) Investment

The fair value of publicly traded instruments is estimated based on the quoted market prices.

(iv) Borrowings

The carrying amount of both short and long term borrowings approximate fair value because the loans are interest- free.

18. CAPITAL COMMITMENTS

		2007 RM	2006 RM
	Capital expenditure not taken up in the account - approved and contracted out	48,616,185	12,260,952
19.	STAFF	2007	2006
	Number of staff	188	190

20. COMPARATIVE FIGURES

The following comparative figures had been restated to reflect prior years' adjustments which have been accounted for retrospectively:

	As previously Reported RM	Effects of Adjustments RM	As Restated RM
Inventories	2,915,062	(519,581)	2,395,481
Cost of production	9,222,259	40,918	9,263,177
Net loss after taxation	(54,683)	(40,918)	(95,601)
General Reserve	44,669,290	(519,581)	44,149,709

Scale Of Water Charges With Effect From 1st January 1992

Classification	Rates		
Domestic			
Minimum charge in any one month	RM4.40		
1,000 to 15,000 litres in any one month	RM0.48 per 1,000 litres		
In excess of 15,000 litres but not exceeding			
50,000 litres in any one month	RM0.72 per 1,000 litres		
The excess over 50,000 litres in any one month	RM0.76 per 1,000 litres		
Domestic/Commercial			
Minimum charge in any one month	RM18.70		
1,000 to 25,000 litres in any one month	RM0.83 per 1,000 litres		
The excess over 25,000 litres in any one month	RM0.95 per 1,000 litres		
Commercial			
Minimum charge in any one month	RM22.00		
1,000 to 25,000 litres in any one month	RM0.97 per 1,000 litres		
The excess over 25,000 litres in any one month	RM1.06 per 1,000 litres		
Special Commercial - Water Processed for sale			
Minimum charge in any one month	RM27.50		
1,000 to 25,000 litres in any one month	RM1.21 per 1,000 litres		
The excess over 25,000 litres in any one month	RM1.33 per 1.000 litres		
Public standpipes	RM0.43 per 1,000 litres		
Water collected at depot (Customer's transport)	RM0.43 per 1,000 litres		
Water to ship	RM1.70 per 1,000 litres		

Meter Rents

Dimension Of Meter	Per Month or Part Thereof
15 mm	RM0.55
20 mm	RM1.65
25 mm	RM2.20
30 mm	RM2.75
40 mm	RM3.30
50 mm	RM4.40
80 mm	RM8.80
100 mm	RM11.00
150 mm	RM16.50

Fees

For "Turning On Service"	RM5.50
For "Re-connection" due to non-payment	RM16.50

PERFORMANCE INDICATORS

The Board's performance is divided into three main criteria, namely the Physical, Service and Financial Performance Indicator:-

I.	Physical Performance Indicator	2005 Average	2006 Average	2007 Average	Bench Mark
1	Annual treatment plant reserve margin (%) Total plant capacity - actual production x 100 Total plant capacity	32.2	21.7	19.9	17.1
2	Network density = Total km of pipeline Total sq. km area	0.46	0.47	0.48	0.28
3	Population/Km of pipeline Total population Total km of pipeline	259	264	265	277

II.	Service Performance Indicator	2005	2006	2007	Bench Mark
1	No. of connections per employee	234	249	261	377
2	No. of connections per meter reader	3,369	4,061	4,131	3,197
3	Length of pipeline (Km) per employee	4.55	4.72	4.92	6.8
4	Total output of treated water (cu.m) per employee per month	13,793	15,071	15,450	24.955
5	No. of pipeline breakages per kilometer per month	0.04	0.03	0.03	0.11
6	No. of complaints received per 1000 connections per month	10.22	6.36	5.74	4.95
7	Actual no. of meters replaced Expected no. of meters to be replaced	0.00	0.61	0.04	n/a
8	% of Non-revenue water	26.83	29.58	28.10	37.70
9	Actual consumption(cu.m) per pipulation - per month	8.38	8.49	8.50	8.77
10	% of No. of treated water NTU>5.0 violation	0.00	0.00	0.00	n/a
11	% of No. of treated water bacteria/E-coli violation	0.00	0.00	0.00	n/a
12	% of No. of treated water true color>5.0 violation	0.00	0.00	0.00	n/a

m.	Financial Performance Indicator	2005	2006	2007	Bench Mark
l (i)	Average O & M cost increase,RM (annually) Average increase in water production,MLD (annually)	667,784 3.94	630,041 6,22	745,915 2.22	n/a n/a
(ii) 2	Unit production cost (sen) = Total O & M cost Total cu. m water produced	45.3	41.0	47.4	68.6
3	Average tariff (sen) = Total revenue Total cu. m water sold	80.9	80.7	82.2	105
4	Operating ratio = Total O & M cost Total revenue	0.77	0.80	0.79	1.1
5	Ratio of Total Non-Domestic consumption Total Non-Domestic consumption	1.77	1.76	1.79	n/a
6	Ratio of Total revenue of domestic consumption Total revenue of Non-Domestic consumption	0.99	1.02	0.98	n/a
7	Collection efficiency = Total annual collection Total annual billings	0.92	0.99	1.06	n/a
8	Average collection Total debt x 365 days Period of debts (days) Total billed	44.0	43.6	38.18	n/a

Notes:

Average O & M Cost = Average annual expenditure (exclude depreciation)

Total O & M Cost =Total expenditure (exclude depreciation)
Total Revenue = Total water Sales Only

Domestic - Domestic only

Non-Domestic = Domestic / Commercial, Commercial, Special Commercial, Standpipes & Ship Supply

Total Collection = Received for the Year

Total Billing = Net billing

OUTLOOK FOR 2008

TOWARDS WORLD CLASS!

- * Construction and Completion of Expansion of Salim
 Treatment Plant Phase II
- * Construction and Completion of the construction of a New Raw Water Intake at Salim
- Embracing modern technologies in processing water
- Developing and embracing ICT in enhancing operational efficiencies
- Engaging holistic approach in reducing NRW
- Striking for operating cost effectiveness
- * Conducting road show to create awareness in water conservation and the Board's services
- Promoting innovations and quality services
- Sustaining a conducive and pleasant working environment
- * Sustaining a safe and hazard free organisation
